Instructor's Bio:

Dave Abt has spent his entire life in and around the boating community. Having grown up in a sailing family on Cape Cod, he began sailing at the age of 6 and was sailing offshore by the age of 14. Before abandoning the racing scene in the mid 1980's for the peacefulness of cruising, Dave sailed for the Penn State University Sailing Team and ran the university's intramural sail training program.

In addition to holding a USCG Master's License Dave is also a licensed PADI Master Scuba Diver Trainer having taught scuba diving at the U.S. Naval Academy in Annapolis. It is easy to say that his whole life continues to center around the water. Dave and his family have lived aboard for over a decade and currently resides in southern Maryland. Not only does Dave have a unique understanding of vessel operation (sail & power) both inland and offshore, but managed the Baltimore office for **USA Services, Inc.**, the recognized leader for advanced marine safety, first response / para-military boats & equipment as well as marine survival equipment in the mid-Atlantic area before focusing all of his attention on consulting and training for the Public Safety community. Recently Dave has joined the team at **Mustang Survival**, an organization dedicated to "*Saving Lives for a Living*".

Dave's broad and varied maritime experiences in the commercial, recreational and fisheries segments of the industry provide him with an uncommon vantage point for the training and guidance of new voyagers as they prepare for their dream of that first trip over the horizon. Additionally, Dave is a past President of the Chesapeake Area Professional Captains Association.
